paperback. Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 294 Publisher: Yellow River Water Conservancy Press Pub. Date :2008-07. Book based on the author s commitment to the National Natural Science Foundation research compiled from. Book for the irrigation water and fertilizer management in the science and technology issues. focusing on the sprinkler and drip irrigation and efficient use of water and nitrogen principles and control methods. Divided into ten chapters. Chapter 1 of the modern irrigation system in the common pressure-type fertilizer plant fertilizer tank. venturi. and adjustable proportional fertilization fertilization pump hydraulic performance; Chapter 2 under the conditions of irrigation water and nitrogen in The distribution of soil properties and water seepage and deep laws of nitrogen leaching were analyzed; 3 to 5 in the SPAC system based on energy and irrigation water monitoring results. described irrigation and crop water consumption canopy interception mechanism; Chapter 6 discusses the field evaluation of drip irrigation system performance and standards; Chapter 7 describes the layered soil drip irrigation. nitrogen transport and distribution of the test results of simulation studies; 8 to 10 chapters in the study of soil nitrogen dynamics and irrigation water and fertilizer management on crop response characteristics based on the proposed water and nitrogen management and optimization of control measures. This book is available in the irrigation water and fertilizer management. and promotion of professional research scientists and universities and students to read relevant professional reference. Contents: Preface Chapter 1. modern fertigation device performance 1.1 Overview 1.2 Differential Pressure Hydraulic Performance fertilizer tank fertilizer 1.3 Venturi devices 1.4 adjustable proportional hydraulic performance of hydraulic fertilizer pump performance under Chapter 2. sprinkler characteristics and spatial distribution of soil water and nitrogen its impact on crop yield...
