## Fine Woodworking's Krenov Inspired Display Cabinet Plan

By Fine Woodworking

Taunton Press, United States, 2012. General merchandise. Condition: New. Language: English . Brand New Book. The cabinet-on-stand form popularized by James Krenov uses familiar construction methods such as mortise-and-tenon joints, dowels, and bridle joints. What makes it special are all the lessons and details Jim Budlong adds, learned in years teaching side-by-side with the master. For example, he starts with the doors and then builds the case to fit them. The doors are joined with attractive, simple bridle joints, and divided glass panels help make them special. The carcass is joined with dowels, which makes it easy to dry-fit to ensure a perfect fit with the doors. The legs are shaped on the bandsaw and refined with hand tools. SKILL LEVEL: Intermediate FINISHED SIZE: 11 5/8 in. deep by 22 1/4 in. wide by 60 13/16 in. tall PRINTED PLAN INCLUDES: Companion How-to Article Detailed cutlist Extensive, full-size and scale drawings.

### Reviews

*This pdf is wonderful. It is definitely simplified but excitement from the 50 percent in the ebook. You won't sense monotony at any time of your time (that's what catalogues are for relating to should you request me).*
