iUniverse, 2015. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. It is 2434 in a faraway galaxy where the Bria race has just been wiped out. Commander Iaxxlys, the leader of the Larin fleet ostensibly responsible for the annihilation of the Bria, is awaiting execution. Spurred by the notion that the council has been infiltrated, Iaxxlys's first officer breaks him out of his holding cell and together, with several troops, the two escape the planet in an effort to save their people from extinction. The Larin civil war has officially begun. One year later after Captain Radford of the Innerstellar Space Fleet is ordered to investigate a mysterious vessel that has appeared several light years away, he and his squadron are sent straight into a brutal encounter with an unknown enemy. After the Fleet learns they are the focus of the Larin civil war and prepare to defend the Sol System, Radford discovers the Larins may not be acting of their own accord. As a plot is revealed to wipe out all intelligent life and a mysterious race appears, now only time will tell if the Larins and the humans can put their differences aside to prevent mysterious forces from enveloping the galaxy. The Omega Endeavor is the gripping tale of an epic space battle between good and evil as the future of mankind hangs precariously in the balance.
