RELIGION, SPACE, AND THE ATLANTIC WORLD (HARDBACK)

DOWNLOAD

University of South Carolina Press, United States, 2017. Hardback. Condition: New. Language: English . Brand New Book. While the concept of an Atlantic world has been central to the work of historians for decades, the full implications of that spatial setting for the lives of religious people have received far less attention. In *Religion, Space, and the Atlantic World*, John Corrigan brings together research from geographers, anthropologists, literature scholars, historians, and religious studies specialists to explore some of the possibilities for and benefits of taking physical space more seriously in the study of religion. Focusing on four domains that most readily reflect the importance of Atlantic world spaces for the shape and practice of religion (texts, design, distance, and civics), these essays explore subjects as varied as the siting of churches on the Peruvian Camino Real, the evolution of Hispanic cathedrals, Methodist identity in nineteenth-century Canada, and Lutherans in early eighteenth-century America. Such essays illustrate both how the organization of space was driven by religious interests and how religion adapted to spatial ordering and reordering initiated by other cultural authorities. The case studies include the erasure of Native American sacred spaces by missionaries serving as cartographers, which contributed to a view of North America as a vast expanse of unmarked territory ripe for settlement. Spanish explorers and missionaries reorganized indigenous-built space to impress materially on people the surveillance power of Crown and Church. The new environment and culture often transformed old institutions, as in the reconception of the European cloister into a distinctly American space that offered autonomy and solidarity for religious women and served as a point of reference for social stability as convents assumed larger public roles in the outside community. Ultimately even the ocean was reconceptualized as space itself rather than as a connector defined by the land masses...
