

Earth Cancer (Hardback)

By Van B. Weigel

ABC-CLIO, United States, 1995. Hardback. Condition: New. New.. Language: English . Brand New Book ***** Print on Demand *****. From the pollution-infested landscape of urban areas to the leached soil of decimated rain forests, the human race has exerted its will on the environment with reckless abandon. In effect, humankind has become a most dangerous type of Earth Cancer. Now this rampant form of cancer is threatening the very existence of life on this planet. Is it our divine right to control all species and habitats? Does our insatiable hunger for expansion and disregard for the environment represent a collective death-wish by our species? If so, how can we change our fate? This extraordinary book confronts these questions by studying the complex relationship between ethics, economics, and ecology. More than a chronicle of environmental devastation, Earth Cancer challenges human beings to examine and redefine their economic, social, and moral values in a way that respects the interdependence of the biosphere. Only when this level of self-understanding is reached can humans realize their full potential as intelligent species and preserve the earth's ecology for future generations. The facts are shocking. Every day on Earth, approximately 75 plant and animal species...
