Ebooks2go, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.In 2008, an anonymous person named Satoshi Nakamoto created the first digital currency (cryptocurrency) ever known to the world called BITCOIN and released as open source software. He never knew it could be the future of ecommerce as it is paving a way for virtual money. Till 2010, people were just collecting Bitcoins through the mining process. Once a Bitcoin user -Laszlo- went to a restaurant to have a pizza. To his surprise when checked, he forgot the wallet at home. So he requested the owner if he would accept Bitcoins in exchange of pizza. Owner knew something about Bitcoins so he immediately accepted. So 10,000 Bitcoins were given in exchange of 2 Pizzas. This valued each Bitcoin for around 3 Cents in 2010. Slowly after this, Bitcoin was being used as currency to exchange services. Just like the conventional currencies- dollars, yen and Euros, it can be traded, exchanged and holds a value in the market. As it was slowly being adapted as currency, value of the Bitcoin started raising gradually. Currently in 2017, its value has crossed over \$1000 and soon it s expected to double almost every year. As per the algorithm, this generation process will continue till the year 2140. Only 21 Million Bitcoins would be in circulation. Because Bitcoin circulation would be very limited in number and demand keeps raising, price also will keep on raising. Now is the right time to invest in Bitcoins. Take action and explore proven techniques to start earning with Bitcoins.
