Water Supply and Drainage Physical Chemistry (2nd Edition Higher textbooks)

Filesize: 3.42 MB

Reviews

If you need to adding benefit, a must buy book. It really is writter in straightforward words and phrases rather than difficult to understand. Your life period is going to be change the instant you total reading this ebook.

(Letha Okuneva)

WATER SUPPLY AND DRAINAGE PHYSICAL CHEMISTRY (2ND EDITION HIGHER TEXTBOOKS)

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment.Pages Number: 197 Publisher: China Architecture and Building Pub. Date: 1997-12-01 version 2 2011-06-01 2nd printing. Water Supply and Drainage Physical Chemistry first published in 1989. after the school water supply and drainage engineering and environmental engineering students in extensive use of the 5th. reprint of the book made valuable comments and suggestions for the revision work to create favorable conditions. The second edition of the book content, according to Water Supply and Drainage disciplines recent approval of the Steering Committee of Physical Chemistry course teaching the basic requirements. combined with the recent editorial written in teaching practice. This book include: chemical thermodynamics. chemical and phase equilibrium. electrochemistry. surface phenomena. colloid chemistry. chemical kinetics. basic six chapters. Contents: First Edition Preface Second Edition Preface Symbols and terminology commonly used in the book Introduction Chapter Table of chemical thermodynamics Thermodynamics Section II of the study basic concepts. systems and environment Second. the process and means three states and state function Fourth. the nature of the extension of the nature and intensity of the first law of thermodynamics third quarter one, the internal energy, heat and power of the concept of two, three reversible process and the maximum power. the mathematical expression of the first law of thermodynamics four constant-volume heat. constant pressure heat. enthalpy five thermochemical a fourth heat. reaction heat effect two. Gass Law Third, generate heat and heat of formation four ions, the reaction heat and temperature relationship - Kirchhoff s second law of thermodynamics formula V First. the irreversibility of two spontaneous process. entropy and second law of thermodynamics Third. the process Ark criterion - the principle of entropy increase four physical changes in the calculation...
