Barron s Educational Series, 2008. Paperback. Condition: New. Language: English . Brand New Book. High school and college students who have a budding interest in architectural design will value this book for its solid foundational orientation and instruction. Author Mo Zell introduces readers to architecture s visual language, showing them how to think spatially and getting them started in architectural drawing with a series of instructive tutorials. Presenting three-dimensional design problems, she coaches students through the fundamentals of proportion and scale, space and volume, path and place, and materials and textures. A series of 40 work units covers virtually every aspect of architectural drawing, including: Learning to see and sketch with accuracy Developing fundamental drawing and modeling skills Mastering subjective representation and rules of perspective Employing spatial strategies: rendering and diagramming ideas She concludes with practical advice for young people who are considering careers in architectural design, offering ideas on building a portfolio, getting advanced training, and continuing on a path to a professional career. More than 800 instructive illustrations.
